

Make the first night easier.

A practical priority-room checklist for your move. Use alongside your removal company's instructions.

Before moving day

Choose the first room you need to use. Label boxes with destination and priority. Keep keys, chargers, essential clothing and basic toiletries in a bag you control. Keep medicines and important documents secure with you.

Keep the move safe

Ask the remover about heavy or awkward items. Agree parking, access and timing. Keep exits and walking routes clear. Tell each supplier what their role is; do not assume unpacking includes furniture lifting or disposal.

First evening

Make a clear route to the bathroom and bed. Find basic kitchen items. Avoid unpacking everything at once. Keep packaging together for your own agreed collection or disposal arrangements.

The next useful areas

Choose where everyday items will live before buying containers. Review one cupboard or wardrobe at a time. Keep decisions about belongings with their owner.

My first three priorities

1. _____
2. _____
3. _____

Want a practical pair of hands?

Carla can help before or after a move within an agreed scope. Move & Settle £360, spread over two days; larger defined projects are also available.
